Kraków 2014
services

The reading room provides the public with access to national, European and international IP documentation.

PATLIB staff advises the public how to search and how to retrieve relevant documents. Visitors may search IP databases free-of-charge using the workstations provided.

The PATLIB centre provides a copies of IP documents (paper and electronic documents).

The PATLIB centre provides information on IP procedures, different kinds of IPs, the requirements for filing an IP application, fees, search possibilities, etc. Legal advice is not included in this service.

The PATLIB centre organizes training sessions (seminars, workshops) concerning IP rights, databases, search techniques and other IP related issues.

patent data bases – local access

ORB!T (Questel)

Online searching for patent experts. Search one single database covering more than 80 offices, grouped in invention-based families (daily update). Search by subject, number, company or inventor name. Key content: object of invention, advantages and prior art drawbacks, independent claims, citations, legal status. Ideal tool for engineers, R&D and Legal departments.

EPO GLOBAL PATENT INDEX (GPI)

Combines the EPO worldwide data collection available in esp@cenet with the search capabilities offered by the MIMOSA retrieval software. In addition to the patent bibliographic data from more than 80 patent offices, GPI also provides additional information such as legal status data. Links to complete documents in esp@cenet as well as to the IPC are also available. GPI allows users to carry out worldwide state-of-the-art searches and patent watches.

ESPACE-ACCESS (A)

Database contains all bibliographic information on European patent applications and PCT pamphlets, including searchable abstracts in English and also in French (only for PCT). Contains cross references giving the address where the complete document can be retrieved on corresponding ESPACE EP-A; hyperlinks to esp@cenet.

ESPACE-ACCESS (B)

Contains bibliographic information on granted European patents.

ESPACE-WORLD

Contains bibliographic data, and images of PCT patent applications; coverage 1993-2009; database discontinued.

ESPACE ACCESS-PRECES

Bibliographic information on patents from Eastern and Central European States, index to Espaces-Preces full-text data base; titles in original language, and also translated into English; database discontinued.

ESPACE-PRECES

Full-text patents from Poland, Bulgaria, Hungary, Czech Republic, Slovakia, Romania and Lithuania; coverage 1993-2009; database discontinued.

ESPACE-BULLETIN

Bibliographic and legal status data of European patent applications and granted European patents.

ESPACE-LEGAL

Databases contains: directory of professional representatives, collection of legal texts, guides and reports related to the European Patent Convention, decisions of the EPO Board of Appeal, EOE Compendium, including all the examination papers of the European Qualifying Examination.

patent data bases on Internet
